

**Brussels Privacy Hub  
Summer Academy for Global Privacy Law 2025**

**The Data Reg Stack: Decoding the Digital Rulebook in a Disruptive Tech Era**

**16-20 June 2025**

**FINAL PROGRAMME**

## DAY 1 – Data Protection Foundations 101

| Time          | Session                                      | Contributor(s)                                                       | Provisional Title                                             |
|---------------|----------------------------------------------|----------------------------------------------------------------------|---------------------------------------------------------------|
| 08:30 – 08:45 | Welcome & introduction to the Summer Academy |                                                                      |                                                               |
| 08:45 – 09:30 | Keynote                                      | Thibault Helleputte, CEO @DNAlytics                                  | Expectations and Realities: Managing Data and AI Challenge    |
| 09:30 – 11:00 | Lecture                                      | Sophie Stalla-Bourdillon,<br>Michaël Van den Poel, Andres Algaba VUB | From Data to Models: Governing Personal Data in the Age of AI |
| 11:00 – 11:30 | Refreshments                                 |                                                                      |                                                               |
| 11:30 – 12:45 | Panel                                        | Pablo Rodrigo Trigo, VUB,<br>Natascha Gerlach, CIPL & kai Zenner, EP | GDPR Challenges in the AI Era: Time for a Reset?              |
| 12:45 – 14:00 | Lunch Break                                  |                                                                      |                                                               |
| 14:00 – 15:00 | Lecture                                      | Paul Quinn, VUB                                                      | Exploring the Reuse of Health Data under the EHDS             |
| 15:00 – 17:00 | Workshop                                     | Vincenzo Tiani, VUB                                                  | Sensitive Processing in the Workplace                         |

## DAY 2 – Data Protection Foundations 201

| Time          | Session      | Contributor(s)                               | Provisional Title                                                     |
|---------------|--------------|----------------------------------------------|-----------------------------------------------------------------------|
| 09:00 – 10:00 | Lecture      | Tommaso Fia, Tuebingen Uni                   | Data Overlaps: The intersection of Trade Secrecy and Data Law         |
| 10:00 – 11:15 | Lecture      | Rowin Jansen, Radboud Uni                    | The Future of the Data Privacy Framework                              |
| 11:15 – 11:45 | Refreshments |                                              |                                                                       |
| 11:45 – 13:00 | Panel        | Estelle Masse, EC &<br>Giuseppe Bianco, OECD | Data Without Borders?<br>Navigating Transfers in a Geopolitical Storm |
| 13:00 – 14:00 | Lunch Break  |                                              |                                                                       |
| 14:00 – 17:00 | Workshop     | Nikolaos Theodorakis,<br>Wilson Sonsini      | The Duties of Data Controllers                                        |

### DAY 3 – Market Fairness and Resilience

| Time          | Session      | Contributor(s)                                                                                                                              | Provisional Title                                                                  |
|---------------|--------------|---------------------------------------------------------------------------------------------------------------------------------------------|------------------------------------------------------------------------------------|
| 09:00 – 10:00 | Lecture      | Claudio Teixeira, BEUC                                                                                                                      | The Cyber Resilience Act                                                           |
| 10:00 – 11:15 | Lecture      | Muhammed Demircan, Heidi Waem, and Simon Verschaeve, DL Piper Belgium, DLA Piper Belgium                                                    | Unlocking Access: Legal Entitlements and Obligations in Chapter II of the Data Act |
| 11:15 – 11:45 | Refreshments |                                                                                                                                             |                                                                                    |
| 11:45 – 13:00 | Panel        | Eyup Kun, KU Leuven, Sebastijan Cutura, ECSO, Stéphan André, Centre for Cybersecurity Belgium, Boryana Hristova-Ilieva, European Commission | Cybersecurity and Strategic Autonomy: Can the EU Have Both under NIS2?             |
| 13:00 – 14:00 | Lunch Break  |                                                                                                                                             |                                                                                    |
| 14:00 – 17:00 | Workshop     | Barbara Lazarotto, VUB & Maciej Skonieczka, Proximus                                                                                        | Navigating Data Sharing under the Data Act: Practical insights                     |

## DAY 4 – Ecosystem Sustainability

| Time                                   | Session                            | Contributor(s)                                                                                                              | Provisional Title                                                                                   |
|----------------------------------------|------------------------------------|-----------------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------|
| 09:00 – 10:30                          | Panel                              | Janine Patricia Santos, EDRI,<br>Urs Buscke, BEUC,<br>Desara Dushi, FPF &<br>Leanda Barrington-Leach, 5Rights<br>Foundation | Safeguarding Minors Online: Age Assurance, Platform<br>Responsibilities, and Fair Digital Practices |
| 10:30 – 11:30                          | Lecture                            | Alexsandra Kuczerawy,<br>KU Leuven                                                                                          | Systemic Risk Assessment under the DSA                                                              |
| 11:30 – 12:00                          | Refreshments                       |                                                                                                                             |                                                                                                     |
| 12:00 – 13:00                          | Lecture                            | Gianclaudio Malgieri, Leiden<br>Universiteit                                                                                | Risk Assessment under the AI Act                                                                    |
| 13:00 – 14:00                          | Lunch Break                        |                                                                                                                             |                                                                                                     |
| 14: 00 – 16:00                         | Meeting the European<br>Commission | Liubomir Nikiforov, VUB                                                                                                     | Discussing DSA & AI Act Enforcement                                                                 |
| SIDE EVENT: An Evening Tea at the EDPS |                                    |                                                                                                                             |                                                                                                     |
| DRINKS AND TAPAS AT GINETTE            |                                    |                                                                                                                             |                                                                                                     |

## DAY 5 – Comparative Outlook

| Time          | Session      | Contributor(s)                         | Provisional Title                                                                                  |
|---------------|--------------|----------------------------------------|----------------------------------------------------------------------------------------------------|
| 09:00 – 10:00 | Lecture      | Lucas Anjos, SciencesPo                | The Brussels Effect as Regulatory Performance: A Deep Dive into Brazil's Data Protection Landscape |
| 10:00 – 11:00 | Lecture      | Henry Pierce, University of Portsmouth | AI and Data Protection in the UK: An Overview of Post-Brexit Regulatory Developments               |
| 11:00 – 11:15 | Refreshments |                                        |                                                                                                    |
| 11:15 – 12:15 | Lecture      | Wenlong Li, Aston Uni                  | Deep Dive into Chinese Law                                                                         |
| 12:15 – 13:00 | Keynote      | Hielke Hijmans, Belgian DPA            | AI, Big Data & Data Protection: The Legal Battleground                                             |
